DESIGN AND BUILD YOUR CAREER THROUGH
Co-op & Student Opportunities
at Eclipse Automation

Take Your First Step Towards a Career That Knows No Bounds

At Eclipse, we design and build the future. We also help you design and build your future career.

Are you interested in joining a global organization that works with industry leaders to create technology that changes the world?

Then a co-op opportunity at Eclipse Automation is perfect for you!

About Us

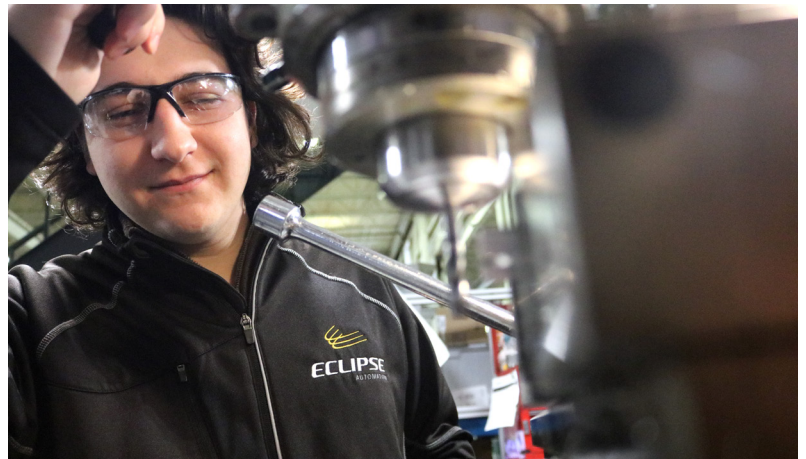

- Sites in Canada, the United States, Germany, Hungary, Switzerland, and Malaysia
- In 2022, Eclipse Automation was acquired by **Accenture Industry X** to revolutionize custom automation for our customers

Our Highly Experienced Team

- 900+ Employees
- 300+ Engineers/Designers
- 400+ Skilled Tradespeople

We design, build and integrate custom engineered automation solutions for top global manufacturers. Specializing in the Life Sciences, Transportation, Energy and Consumer-Industrial industries, we're at the cutting edge of technology.

At Eclipse, our robust co-op program helps pave the way for your future success. You'll join a dynamic team and engage in meaningful work on real projects for some of the largest companies in the world.

From life-saving medical devices, to cutting-edge electrical vehicles, to clean energy powering our future, a co-op at Eclipse gives you the chance to learn directly from industry experts and work on exciting and challenging projects for global leaders across a variety of industries.

We offer co-op opportunities with various departments within our Skilled Trades, Engineering, and Business Operations streams to set you up for success:

Skilled Trades

- Electrical Shop
- Machining
- Tool Room
- Fabrication (including Paint and Sand)

Engineering

- Mechanical Design
- Electrical Design/Controls
- Engineering Supervision
- Applications
- Nuclear

Business Operations

- Information Technology
- Human Resources
- Health and Safety
- Accounting
- Supply Chain
- Quality

Why Choose Eclipse?

Which Path Will YOU Take?

What's In It for Me?

A co-op role at Eclipse is so much more than a student job.

It's a stepping stone for YOUR future - because your journey doesn't need to end when your co-op term is up. An apprenticeship or job opportunity could be in your future with Eclipse.

Just take a look at what a Co-op at Eclipse can do for you:

- Meaningful work that actually makes a difference
- Partnership with a mentor that will encourage and foster your growth
- Exposure to various trades, so that you can explore which trade is best for your future
- Real-world experience within a breadth of industries to help set you up for success
- Exposure to cutting-edge technology and exciting projects for world-renowned clients
- The opportunity to further your career with Eclipse through an apprenticeship or full-time job at the end of your co-op position

"At Eclipse, I work with smart and supportive colleagues who help me understand what engineering means in the real world. I have the opportunity to work on complex engineering and automation systems, and learn from industry experts and mentors. I have also adopted important qualities that will be a great advantage after graduation. My time at Eclipse has been indispensable."

Amith Domy, 2nd year, Mechanical Engineering Technology, Conestoga College
