THE ECLIPSE ADVANTAGE

Transportation

Custom Automated Solutions The Eclipse Advantage

At Eclipse, our extensive range of automation technology and project experience can help solve manufacturing challenges in any environment.

We build state-of-the-art solutions that exceed expectations, support investment plans, strengthen manufacturing strategies and protect the productive life of your system.

Industry Sectors We Serve

- Life Sciences
- Transportation
- Energy
- Consumer
- Electronics
- Industrial

About Us

- Founded in 2001
- Facilities in Canada, the United States, Hungary, Switzerland, Germany, and Malaysia
- High-Tech Global Partners

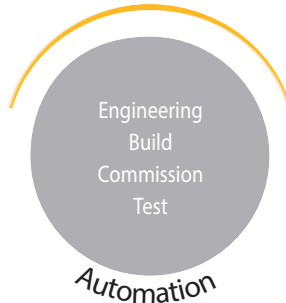

- Our Highly Experienced Team**
- 900+ Employees
 - Multilingual

End to End Solutions

Pre-Automation Services

- Proof of Principle
- Develop Specifications
- Project Planning
- Lean Manufacturing
- Risk Assessment

- Engineering
- Build
- Commission
- Test

Post-Automation Services

- Training
- 24/7 Support
- Long-Term Service

Capabilities

- Assembly
- Movement Platforms
- Controlled Processing
- Integration
- Data Collection
- Quality, Inspection & Testing
- Validation

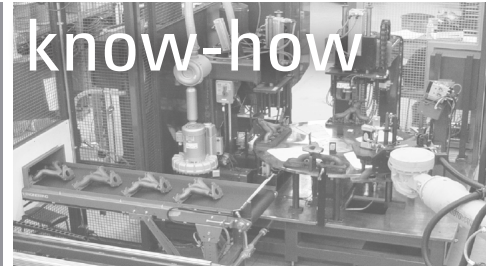

Locations

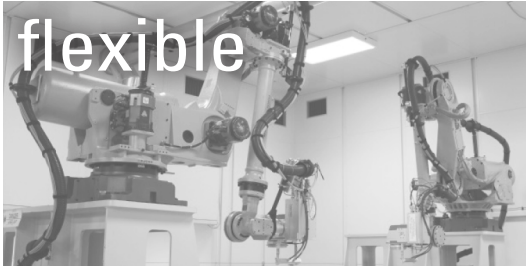

Transportation

Eclipse Automation offers innovative manufacturing solutions in assembly, welding, inspection, testing, and data analysis for the transportation industry. We are experts in Internal Combustion Engine (ICE) and Electric Vehicle (EV) solutions.

know-how

flexible

Our vertically-integrated design, fabrication, machining, assembly, and commissioning facility ensures that we control, end-to-end, the completion of your project.

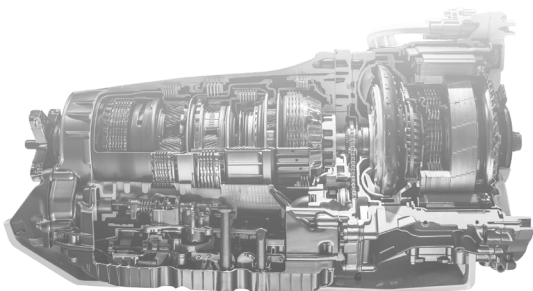

Transportation Experience

- Battery Module
- Inverter
- Automotive Electronics
- Power Train Component Assembly
- Engine & Transmission Components
- Transmission & Emission Components
- Interior Plastics & Mechanism Assembly
- Body & Structural Welding Systems
- Line Side Automation

Customer Advantages

- Increased Productivity of Manufacturing Facilities
- Ensured Quality Control
- Repeatable and Controlled Assembly & Testing Processes
- Reduced Assembly and Testing Times
