THE ECLIPSE ADVANTAGE

Nuclear

Custom Automated Solutions The Eclipse Advantage

At Eclipse, our extensive range of automation technology and project experience can help solve any manufacturing challenge.

We build state-of-the-art solutions that exceed expectations, support investment plans and strengthen manufacturing strategies.

Industry Sectors We Serve

- Nuclear
- Life Sciences
- Transportation
- Energy
- Consumer
- Electronics
- Industrial

About Us

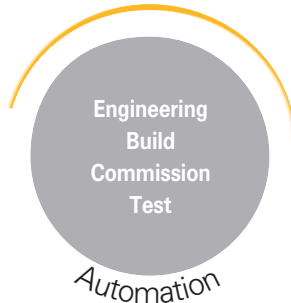

- Founded in 2001
- Facilities in Canada, the United States, Hungary, Switzerland, Germany and Malaysia
- High-Tech Global Partners

- Our Highly Experienced Team**
- 900+ Employees
 - Multilingual

End to End Solutions

Capabilities

- Assembly
- Movement Platforms
- Controlled Processing
- Integration
- Data Collection
- Quality, Inspection & Testing
- Validation

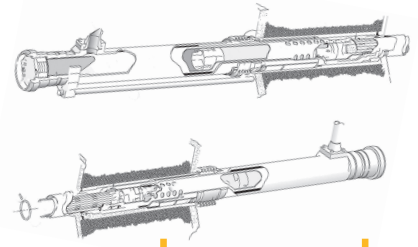

Locations

Platinum member

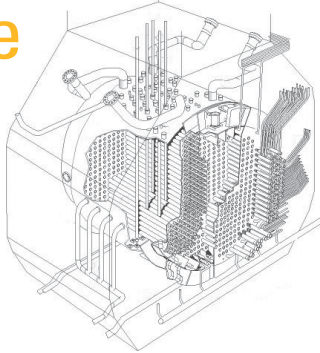

Nuclear

Eclipse designs, builds and integrates custom engineered solutions for the nuclear industry. Our team of engineers and technical automation experts understand the regulatory and safety requirements of nuclear high-risk environments.

know-how

flexible

In addition to developing innovative tools, equipment and automation systems to refurbish nuclear reactors and support the work of decontamination and decommissioning, we provide a flexible range of services and solutions that are economical and scalable.

Nuclear Experience

- Design and Manufacture of Structures, Systems and Components for Nuclear Facilities
- Reactor Life Extension
- Decommissioning
- Waste Management
- Reactor Inspection and Maintenance
- Mock-up Testing and Commissioning

Solutions

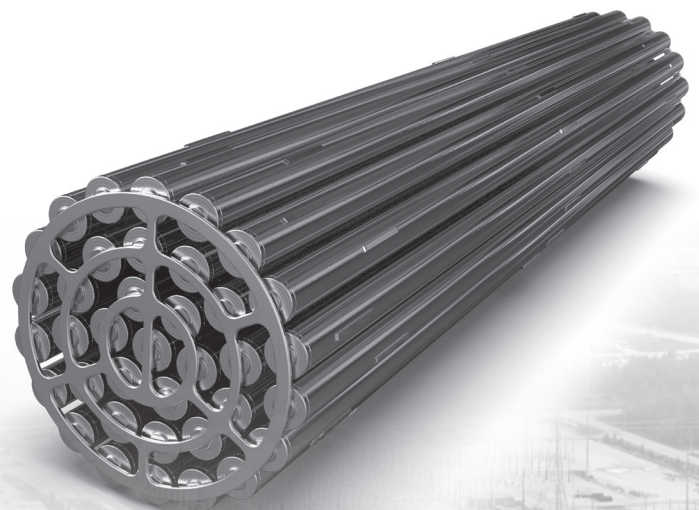

- Remotely Operated Waste Extraction
- Automated Volume Reduction
- High-Speed Welding
- Reactor Component Assembly and Installation Systems
- Visual Inspection With Machine Vision
- Field Technical Support
